PROFESSIONAL EXPERIENCE

I worked as an intern in Diamond Trust Bank product department where I was exposed to the different ways of project management. Also my data analysis skills in python were sharpened

WORK EXPERIENCE

Intern

April 2022 - July 2022

- I worked as an intern for the product department where I was responsible for designing the system processes involved in designing some of their apis.

React Native Developer

January 2023 - March 2023

- Am working on my system project, I desided to build it with react native running on typescript.Redux state manager is also to be used to manage the many different states.
